NZ Resident Visa | Auckland, NZ

I am a Software Developer with a background as a Nurse in Neonatal Intensive Care Units. I have a passion for solving puzzles and tackling challenges, which led me to explore the field of programming. Through my curiosity and problem-solving skills, I discovered the endless possibilities of coding and the joy it brings. I am excited to embrace new challenges and collaborate with the fantastic people in this industry to continue to grow as a developer.

EXPERIENCE

Apprenticeship in Software Development - Dev Academy Aotearoa

Jan 2023 – May 2023

This 17-week course equipped me with the skills and knowledge necessary to launch my career as a software developer. Throughout the program, I developed my technical expertise and interpersonal skills through individual assignments, pair programming, and group projects. I actively gave and received feedback from peers and instructors, and frequently presented on various technologies researched during weekly meetings.

During the course I worked on many projects, and one that I enjoyed the most was the final group project, [Waitless](#), where I could use different technologies I had learned during Bootcamp, like **Typescript, Javascript, React, Redux, relational databases, Agile methodologies, Git version control in GitHub**, etc., and also some new ones like **React query** (TanStack-query) and **TailwindCSS**. My contribution in this project included the menu page, both for the users and admin views, as well as the tests for those components.

- Demonstrated **problem-solving** and **teamwork** skills through working in individual assignments, **pair-programming** and group projects to learn new technologies and build applications with them.
- Demonstrated ability to give and receive actionable, specific and kind **feedback** from peers and instructors.
- Demonstrated **public-speaking** skills by doing weekly research and presenting on various technologies to all the peers and facilitators.

Wellness Partner – Arvida Group Limited

Feb 2022 – Aug 2022

- Showed **responsibility, interpersonal** and **communication** skills by working collaboratively with the wellness team to promote the resident's physical, emotional and mental health.
- Demonstrated my **organizational** skills and **project management** abilities to coordinate various activities, such as exercise classes and social events, to improve the overall wellbeing of the residents.

Career gap | Jun 2019 – Jan 2022

Volunteered at my local church – various roles

- Demonstrated **organizational** and **project management** skills by planning and executing various activities and events for women and families.
- Demonstrated **public-speaking** and **interpersonal** skills through preparing regular lessons for the members of the ward, meetings and leadership training sessions.
- Demonstrated my **creativity** skills through developing engaging weekly activities for children.
- Demonstrated **teamwork** and **communication** skills by planning and executing camps, group trips, events and weekly activities with other volunteers and the youth group.

NICU Nurse – Clinica Santa Helena

Apr 2018 – Apr 2019

- Demonstrated great **responsibility** and **attention to detail** through developing and implementing care plans, administering medications and treatments, and performing various procedures to the newborns and their families health and wellbeing.
- Demonstrated **leadership**, **problem-solving** and **communication** skills by making quick decisions along with the medical team in critical moments.

EDUCATION

Certificate in Applied Software Development - Dev Academy Aotearoa

Jan 2023 – May 2023

Certificate in Nursing in Neonatal Intensive Care Units – Faculdade Herrero

Feb 2015 – Jun 2017

During this specialisation course I learned and practiced the necessary skills to care for a newborn who's critically ill, both in clinical or surgical environment. I also learned leadership and organizational skills needed to manage the unit and the team in stressful situations.

Bachelor Degree in Nursing Practice – Federal University of Santa Catarina

Mar 2008 – Dec 2011

INTERESTS

When I'm away from the computer I love playing cards, boardgames and puzzles with my children; the peace and fun of practicing yoga and also playing the piano with my family.
